NEW MEXICO NATIONAL GUARD WANT RECREATION HALL

On another page in this issue will be found an appeal by the New Mexico National Guard at Columbus to the people of the state for a small donation to erect a hall for their especial benefit.  
Since the departure of Massachusetts the New Mexico boys have been the only ones to perform camp duty for the entire post. Five companies are on guard each alternate 24 hours, which is mighty strenuous business as any one can readily imagine. This duty bids fair to be continued for many months and the people of the state who are directly benefitted should cheerfully comply with the modest request for only a thousand dollars from the whole state.  
Donations can be sent direct to Chaplain Vincent at Columbus or to the Graphic at Deming. Let's boost for the boys.

JUDGE NEBLETT SHOULD BE THE ONE CHOSEN

Since the death of that distinguished jurist, Wm. H. Pope, various names have been suggested and sundry people have put themselves forward for the place so highly honored by the one whom death has summoned, but of all the names suggested the one most eminently fitted for the exalted position is our own judge, Colin Neblett, and it is very much to our friend's credit that this opinion is shared by the best people all over the state.  
There are many reasons why this is true. Judge Neblett is thoroughly versed in the law, but his decisions are always in strict accord with justice. Rich and poor alike have an equal chance in his court. Utterly without political bias, absolutely fair and honest, he would always reflect credit upon the state and upon the exalted station he would fill. The President would do the wisest thing possible to appoint Judge Colin Neblett to the vacant bench in the federal building in Santa Fe.

MONTAVILLE FLOWERS A MIGHTY BIG MAN

The high class audience that enjoyed the masterful address on "True Americanism" by the silver-tongued orator of the Pacific Coast, Monday evening, could not help being impressed with the bigness of the man.  
The great intellect of a red-blooded American like Montaville Flowers when used as he uses it, tends to elevate the tone of the Republic.  
Although speaking for Mr. Hughes, his argument was so clean and fair that men of all parties could enjoy the address. There was no abuse of those who have a right to hold different opinions and the speaker's wonderful grasp of world affairs and his masterful presentation of the same riveted the attention of his hearers.  
Montaville Flowers are a good variety to propagate.

THE FUNNY SIDE OF POLITICS

Gillie Otero's boss has "branded" H. O. Bursum as the "Monarch of Socorro County". This cutting attack is coupled with the further terrible charge that Bursum is spending his own money like water in development of the resources of his home county. Gillie and his boss, neither of whom ever earned a dollar by real work, cannot understand a man who spends his money on other things than his own personal interests, or why such a man should have the love and esteem of a whole community. It is hard for uneducated men to comprehend the character and motives of real, red-blooded men.

SOME DIFFERENCE IN EIGHT YEARS

To show the progress of events it is interesting to note that eight years ago there was an average of eight crossings per day on the railroad on Gold Creek.  
The other day some of the Santa Fe employees kept an accurate record of the crossings, which was only an ordinary day's business. This count revealed 690 fast passengers, 355 autos, 157 trucks and 68 men on horseback. How things have changed.

NOT AN EIGHT HOUR DAY.  
Recent Hold-up Legislation Does Not Shorten Workday a Minute.

As a matter of fact, it is not an eight hour law at all. It does not curtail the workmen's workday by a single minute. If an employer has been receiving \$5 for working ten hours a day this law will raise his pay to \$8.50, but it will not shorten his workday even the tenth part of a second. This is no more like the true eight hour principle than chalk is like cheese.  
The reason why people call this an eight hour law is because it says that in the case of railroad workmen they shall get their day's pay for the first eight hours' work, and all the rest is to be considered overtime.  
Do not tell me that this strike could not have been called off or postponed if President Wilson had shown that he meant business. I do not for one minute believe that those four brothers had leaders started the blame going without knowing how to get it out. One of them admitted that he would put it out so far as his own neighborhood was concerned, but that his followers would think that he had gone back on them if he were to do so.  
—Statement of Congressman A. F. Gurnea.
